**Indicate reason for repeat (check box)**

Repeat is to alleviate substandard work which has been recorded on my academic record. Substandard work is defined as prior course work for which a grade of "D" or "F" has been received.

The previous grade received is at least in part the result of extenuating circumstances. (Extenuating circumstances are verified cases of accidents, illness, or other circumstances beyond the control of the student). Repeated course will not be counted in Grade Point Average (GPA) calculations (Title V, Section 55763). The extenuating circumstances are as follows (verification may be required):

I need to repeat course since a significant lapse of time has occurred since the course was originally taken and an update of information is needed. Repeated course will not be counted in Grade Point Average (GPA) calculations (Title V, Section 55763).

Please specify how repeating course work will be of assistance to you:
