The College of the Siskiyou buildings, grounds and vehicles are designated "clean air" facilities and constitute an environment in which students and employees are protected from potential hazards that may be attributed to, or exacerbated by, the use of tobacco products.

Smoking and use of all tobacco products is prohibited at all times on all District-controlled property, except in designated areas.

"Designated areas" are limited to locations clearly marked by the District and the interior of a personal vehicle in which the doors and windows are closed.

The use of electronic cigarettes or similar devices shall only be outdoors. All users of these devices must be more than 35 feet from operable doors, windows, air intakes and stadium/event seating areas.

Smoking and tobacco products will not be sold or distributed on District property.

This procedure shall not limit programs from enforcing more restrictive smoking and tobacco use measures. Program literature shall clearly describe additional restrictions.
