

Science Camp Siskiyou County Students

(Designed for 7-10th Grade Students)

College of the Siskiyous, Weed Campus

July 6-10, 2009 from 8:30 to 4:15 daily

Students:

Do you love the sound of an engine running well?
Are you fascinated by the changes heat can cause when you cook?
Have you ever been thrilled by the motion of a good roller coaster?

This camp is for the naturally talented electrician or mechanic, the math enthusiast, aspiring chemist, or "computer whiz" whether you get A's in science or not! This is not textbook stuff, this is doing it!

Come to an exciting, hands-on, week at Science Camp filled with great projects that will focus on ENERGY using science, technology, engineering, and math.

Families are invited to attend a Friday, July 10, show-case of the weeks events.

The only cost is the \$13 COS mandatory student fee and you need to bring a lunch or money to purchase lunch on campus.

To register follow the steps below:

- ❑ Registration opens April 20, 2009
- ❑ Minors must register in person and cannot use online registration
- ❑ Use the form distributed at your schools or from the Admissions Office at a COS campus
- ❑ Register for the course ENGR 301. See the COS Summer/Fall Class Schedule for details.
- ❑ Space is limited to 30 students, so register early!

For more information contact the College of the Siskiyous Admission Office closest to you, Weed (938-5555) or Yreka (842-1245).
