Q) As a faculty member, am I required to provide the accommodations DSPS authorized?

A) Yes, you are. Students with disabilities are protected by the Rehabilitation Act of 1973, Section 504. This law requires that qualified students with disabilities get equal access to an education and not be discriminated against in their pursuit of this education. Authorized accommodations are done by a qualified DSPS professional in accordance to students’ documented, verified disability and the educational limitations it imposes.
