The Electromagnetic Soul Vehicle Project

Weed / COS –How do you get to the underground city? Electromagnetic vehicles! “From between the atmospheric portal, we approach you. From the inner Earth, we call. From the deepest depth of the inner ocean, we arrive, The Electromagnetic Soul Vehicle.” And with those words Dave Theno, local area musician and teacher, kicks off an epic adventure that will take us to the lost city of Telos, located deep beneath beautiful Mt. Shasta. The journey will introduce us to the legends of Telos, Atlantis, Rosalia, Adama, the greys, the lizard folk, and so much more! Sounds fun doesn’t it? Well then come join us!

This fall, at College of the Siskiyous, we are looking primarily for dancers and singers who can dance or move well. The initial plan is for this to be a rock opera, with very little straight speaking parts. This project is being created from scratch so the process will be split into two parts.

The first part will be a fall workshop beginning September 8 that will meet every other Saturday from 12 to 6 p.m. These sessions will be essential to the creative process and those who enroll will have an inside track to being cast in the production. Students should register for Musical Comedy Workshop (THEA 1301-02 /#7398). Credit and noncredit options of the class will be offered.

Part two will consist of auditions and rehearsals culminating in performances to be held January 25-27, 2019. For more information please contact Christian Richards, choreographer, at 206-707-2441 or crichards1@siskiyous.edu.
