### **Request for Information 01**

1. Within the Bid Notice document for the above referenced project, Section 6. Contractors' License Classification, it is indicated that bidders must possess a B-General Building License. It is our opinion that the work to be completed on this project falls within the description of an A-General Engineering License, which is the license type held by Bear Mountain Construction. Would the District consider modifying the requirements to allow both A-General Engineering License holders, as well as B-General Building License holders? For reference, below are the license type descriptions from the California Contractors State License Board with relevant items highlighted in the A-General Engineering description:

RFI Response:

Yes, A license are allowed to bid.

A license: A general engineering contractor is a contractor whose principal contracting business is in connection with fixed works requiring specialized engineering knowledge and skill, including the following divisions or subjects: irrigation, drainage, water power, water supply, flood control, inland waterways, harbors, docks and wharves, shipyards and ports, dams and hydroelectric projects, levees, river control and reclamation works, railroads, highways, streets and roads, tunnels, airports and airways, sewers and sewage disposal plants and systems, waste reduction plants, bridges, overpasses, underpasses and other similar works, pipelines and other systems for the transmission of petroleum and other liquids or gaseous substances, parks, playgrounds and other recreational works, refineries, chemical plants and similar industrial plants requiring specialized engineering knowledge and skill, powerhouses, power plants and other utilities plants and installations, mines and metallurgical plants, land leveling and earthmoving projects, excavating, grading, trenching, paving and surfacing work, and cement and concrete works in connection with the above mentioned fixed works. (BPC §7056)

B License: A general building contractor's principal contracting business is in whole or partial connection with any structure built, being built, or to be built, for the support,

shelter and enclosure of persons, animals, chattels, or moveable property of any kind requiring in its construction the use of at least two unrelated building trades or crafts, or to superintend the whole or any part thereof. This does not include anyone who merely furnishes materials or supplies under Section 7045 without fabricating them into, or consuming them in the performance of the work of the general building contractor.

Company background: Verde Design Inc.
