Hello Siskiyou and Happy Day After Daylight Savings Day!

The clock in my office is correct again! Lol.

*This week's updates*

- **Enrollment Report:** Can be accessed by visiting the [Enrollment Report](#) webpage.
- **Maintenance and Facilities Updates:** Plumbers will be in the welding shop bathrooms to install a urinal and remove a sink. The FRP is scheduled to be installed on Thursday and Friday this week. We will then install the new fixture to complete this remodel. There are many limbs on the ground right now around campus, they will be picked up and taken out back for burning this week. Please walk carefully if you have to go through them.
- **Political Anxiety Survey:** For those who were able to attend the Political Anxiety workshop on Feb. 28, please complete this short [survey](#) to provide feedback.
- **Promoting a Healthy Environment:** Smoking and vaping expose users to harmful chemicals that can lead to serious health issues, including lung disease and heart problems. Even secondhand smoke contains toxic substances that can affect those nearby. Creating a smoke-free campus helps protect the health of everyone including students, staff, and visitors alike. Let's work together to keep our campus a healthy and safe environment for all. If you or someone you know is ready to quit, free resources and support are available at [Kick It California](#).
